

PAR1110 - Data and trusted agents: SAP and Microsoft in the AI era

Holger Bruchelt, Microsoft

Microsoft

SAP + Microsoft

30+ years
of partnership

Shared customers
including the world's largest enterprises

Mutual dependence
SAP runs on Microsoft; Microsoft runs on SAP

Alignment
of investments and ecosystems for shared customers

"The case for digital transformation has never been more urgent. By bringing together the power of Azure and Teams with SAP's solutions, we will help more organizations harness the power of the cloud so they can more quickly adapt and innovate going forward"

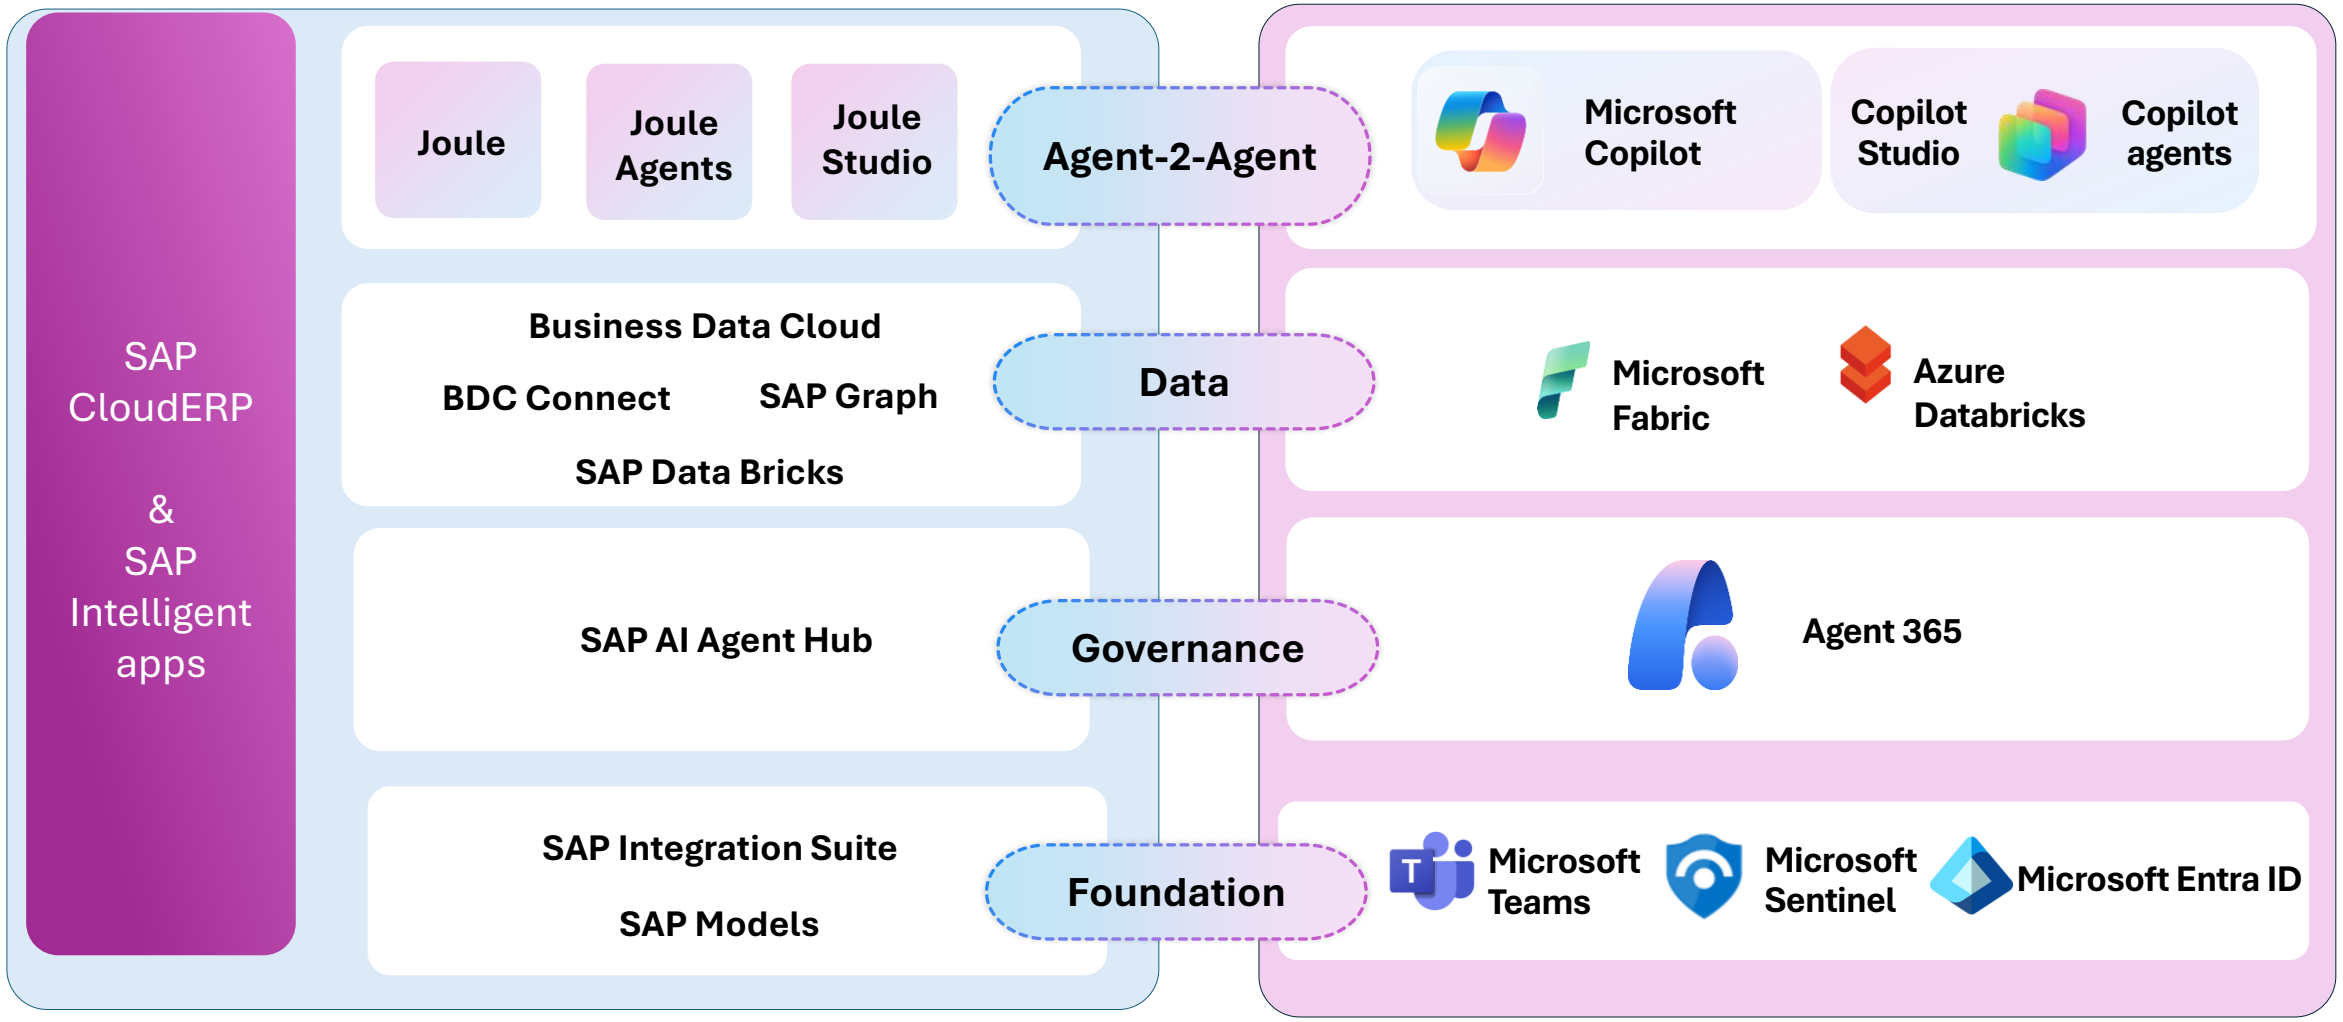

Satya Nadella
CEO of Microsoft

"New ways of working, collaborating and interacting completely transform how we operate. By integrating Microsoft Teams across our solution portfolio, we will bring collaboration to the next level, jointly determining the future of work and enabling the frictionless enterprise"

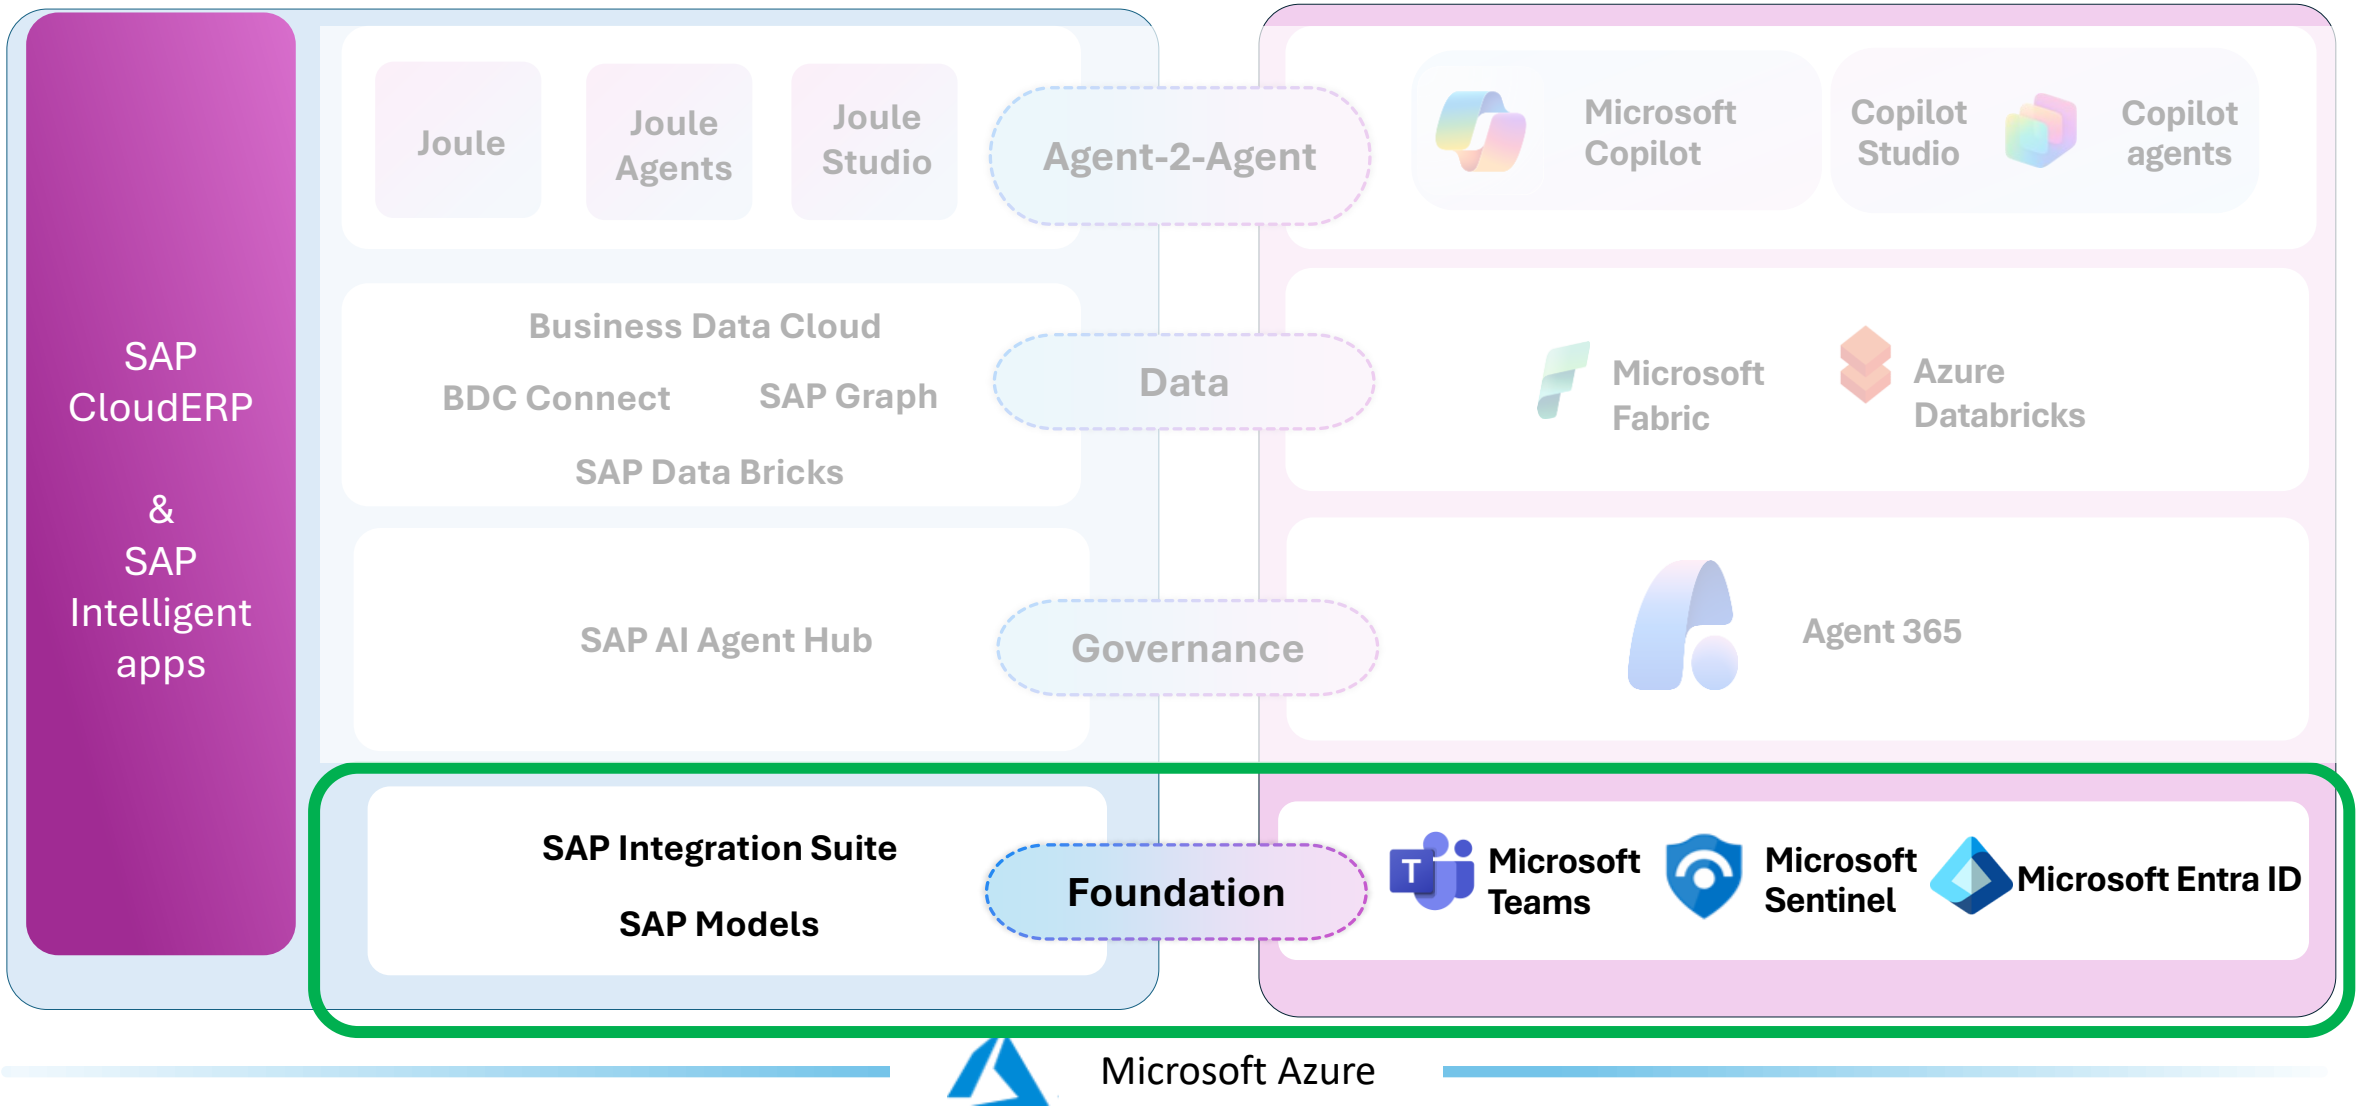

Christian Klein
CEO of SAP SE

CVSS Score –
Common Vulnerability Scoring System

Rating	CVSS Score
None	0.0
Low	0.1 - 3.9
Medium	4.0 - 6.9
High	7.0 - 8.9

CVEs and Security Vulnerabilities - C

- Attackers **compromised four official SAP npm packages** used across SAP BTP development.
- The malicious packages affected core CAP and deployment tooling with ~930,000 weekly downloads.

A clear sign that the **SAP developer ecosystem** is now a **high-value target** for supply chain attacks.

Some stats on #php2shell. In the 10 hours before it was publicly announced, across the @Cloudflare network we saw thousands of attempts to exploit it. That jumped to tens of thousands in the 45 minutes post announcement, hundreds of thousands within 2 hours, and millions now.

→ An urgent defensive agent acceleration is needed in response

Black Hat USA 2026: The 'Breaking' News: The OpenAI–Hugging Face Incident

Project Perception

Act at machine speed

Continuously learn, adapt and strengthen defenses

Red team agents

Simulate attacks

Know what's exploitable before an attacker does

- Map attack paths
- Discover choke points
- Vulnerability code-scanning
- Expose detection gaps

Blue team agents

Detect and triage

Real threats surface, the noise clears

- Operationalize threat intel
- Reconstruct attacks
- Triage alerts
- Close coverage gaps

Green team agents

Fix and remediate

Close the gap to find true root cause and the safest fix

- Analyze posture
- Validate exposure
- Prioritize remediations
- Harden posture

Multi-agent and multi-model workflows

Reduce business risk with multilayered security

Secure and defend SAP apps and data

Identity and access management

Microsoft Entra ID for SSO, MFA, and conditional access for RISE, SAP NetWeaver, and SAP SaaS*

Microsoft Entra ID Governance for SAP user lifecycle handling (role change, new-hire, termination, etc.)*

One Integrated Platform

Data Factory in Microsoft Fabric
SAP connectivity options – overview

Fabric built-in capabilities

- Comprehensive SAP connectivity for professional and citizen data integration use cases
- Serve all standard SAP data use cases out-of-the-box

Partner ecosystem

- Provide an open platform on which partners can offer their data integration solutions
- Broad partner ecosystem supporting **OneLake** and **Open Mirroring**

SAP + Microsoft

- **Aligned integrations**, allowing customers to combine the best of both worlds
- Focus on deepening integration between **Fabric** and **SAP Datasphere/SAP Business Data Cloud**

May 21, 2024 at 2:30 PM
Joule Provide me details on current failures happening at the manufacturing plant in Maryland. Also find any details from my emails and chats.
Joule 2:30 PM
Sure! I found several details from SAP systems as well as content from your emails and chats.
Here's a list of failure root causes happening at the manufacturing plant in Maryland based on SAP data:
• EV battery assembly at capacity 1
• Michelin Pilot Sport 4S vehicle tires low in stock 2
• Equipment maintenance required on line 9 3
Here is a summary of your emails and chats regarding failure root causes in the Maryland plant:
• An email from Brian on 6/7/24 expresses his concern that employees were discussing several failures during last week's manufacturing floor meeting.
• Michelle sent you a Teams chat on 5/4/24 where she shared a briefing from the floor foreman indicating potential supply chain issues due to limited staffing.
• An email from Connor on 7/8/24 informed all floor employees to raise issues or concerns to Michelle immediately.
Which of these items would you like more details on?

MCP Gateway in SAP Integration Suite

Microsoft Copilot Studio & MCP Gateway

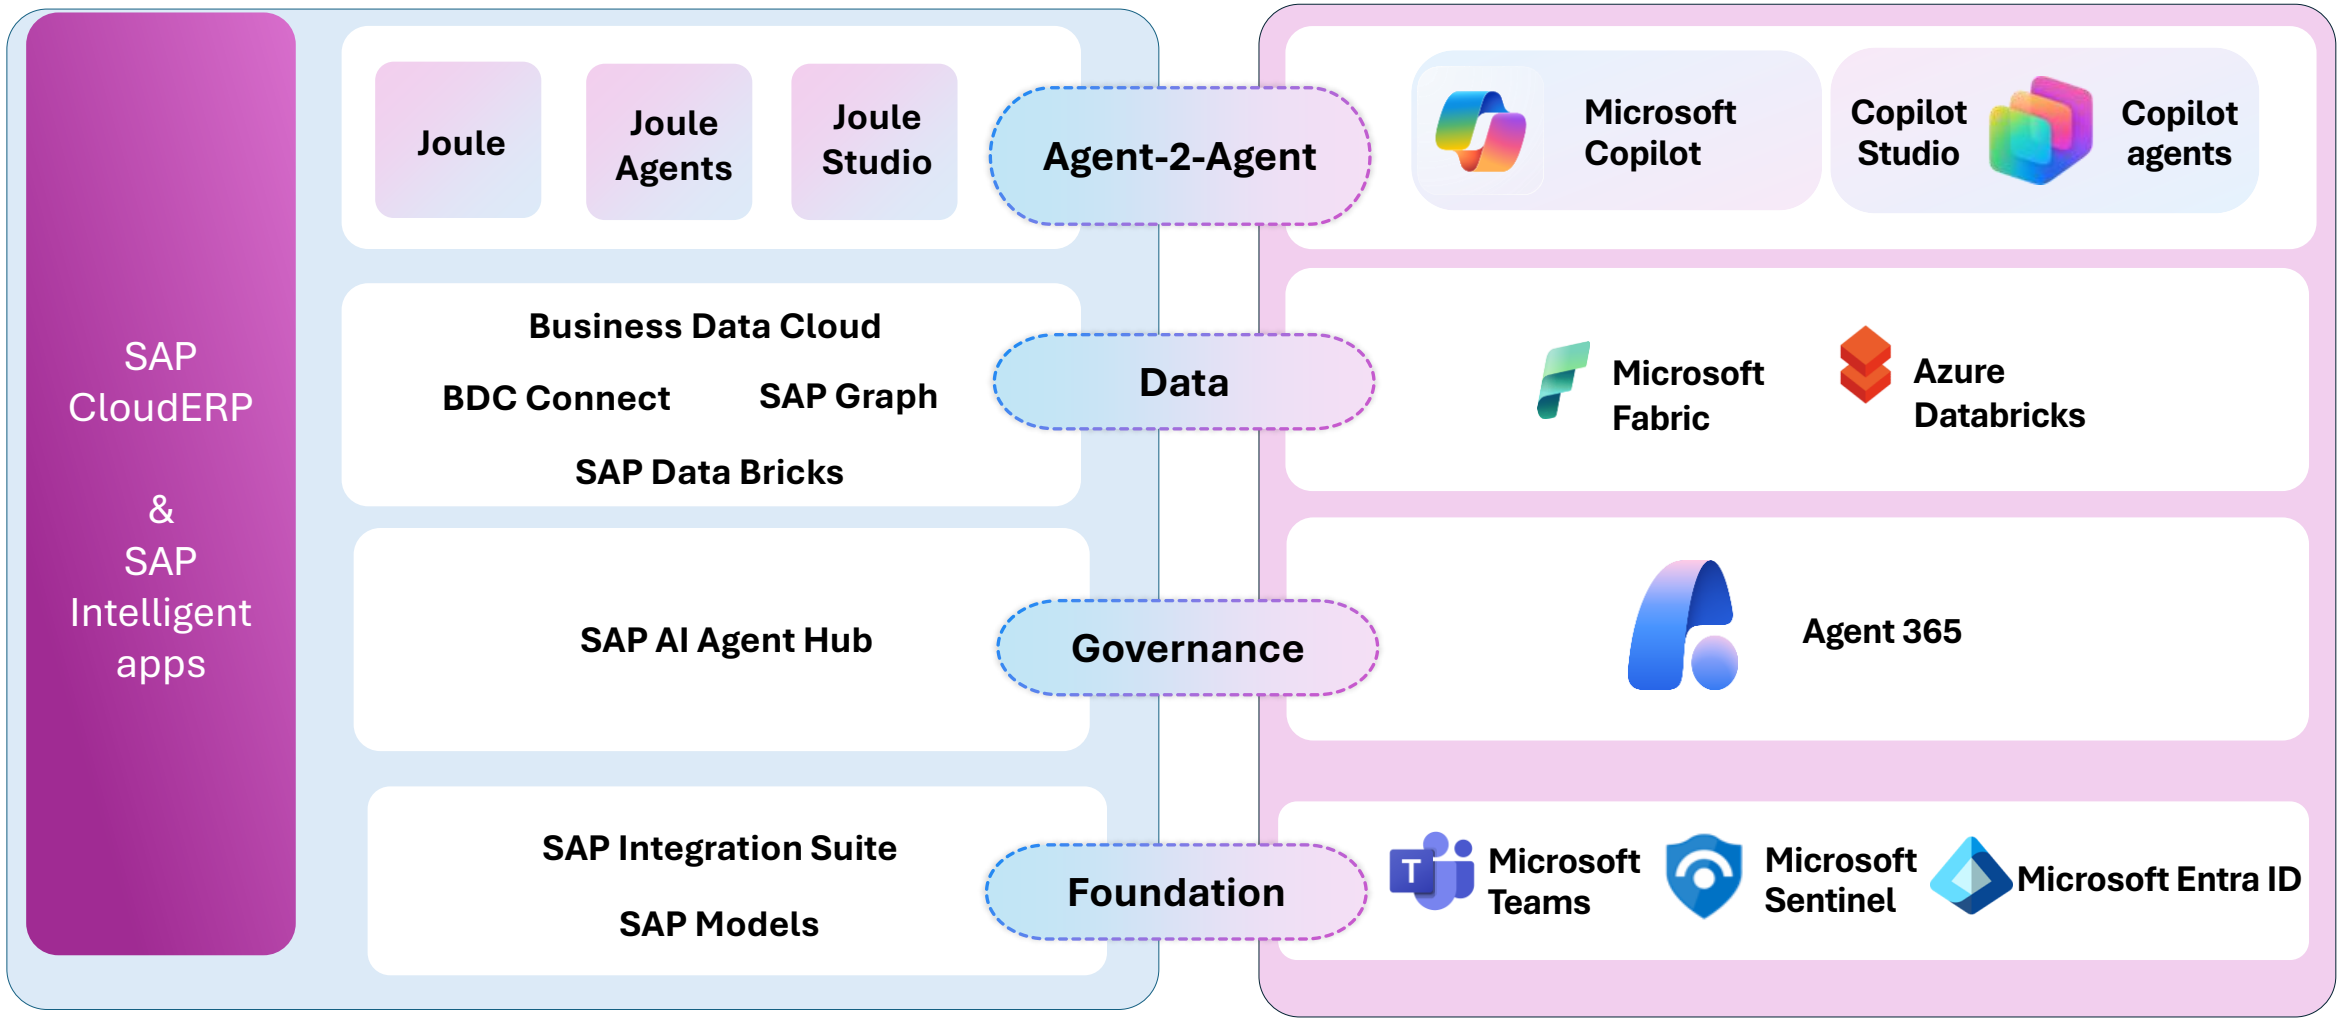

MCP Gateway in SAP Integration Suite

- *SAP-aligned architecture* for exposing enterprise APIs to agents
- *Reuses existing* BTP, Integration Suite, Cloud Connector, and identity *setup*
- Publishes selected APIs and integrations as governed MCP tools
- Keeps control over which entities, actions, and data are exposed
- Applies policies for governance, transformation, and protection
- Preserves end-user authorization through *principal propagation*

Best fit when SAP Integration Suite is already your strategic integration and API governance layer.
