- M365 (& SAP)
- Security / SSO (& SAP)
- Integration

Functional impact of AI at Microsoft

CUSTOMER SERVICE

11.5%

faster in **resolving cases** for Azure support team

SALES

9.4%

higher **revenue per seller** for one business group

MARKETING

21.5%

increase in **conversion rates** on Azure.com

HR

25%

greater accuracy in answering questions through employee self-service

FINANCE

60%

reduction in **case resolution time** in cash collections

LEGAL

5%

reduction expected in **external spend** for regulatory work in 2025

IT

36%

increase for the **self-help success** rate for employees

Customer Zero outcomes –with reliability at scale.

Ted Way, PhD • 1st
VP and Chief Product Officer, SAP Business AI Product Engineering | Ex-MSFT
4w • Edited •

How do you go from competition to collaboration?

The truth is, no customer runs their business on a single platform. As much as we'd like you to only be on SAP :-), ecosystems win where silos fail.

That's why I was thrilled to join [Alex Bitiukov](#), Microsoft Principal PM on the Supply Chain AI Strategy & Innovation team, to showcase how [#SAP](#) Joule can seamlessly interoperate with a [#Microsoft](#) agent built on their team's Stratus platform, hosted on [#Azure](#) AI Foundry.

Through the [#A2A](#) (Agent-to-Agent) Protocol, we're showing what the future of agentic collaboration looks like—open, connected, and borderless.

Contact me if you're interested in A2A with Joule!

[Dr. Philipp Herzig](#) [Dr. Walter Sun](#) [Brenda Bown](#) [Anirban Majumdar](#) [Sivakumar N Victor Alvarez](#) [Vikas Motiwal](#) [Marc-Oliver Klein](#) [Dr. Christian Karaschewitz](#) [Kevin Flynn](#) [Hayley Georgetti](#) [Jodi Larson](#) [Dhaval Desai](#) [Ryan Murphy](#) [Kyle Sprecher](#) [Nathan Weaver](#)
